Designations in the wiring diagram:

- 15 - terminal 15 - connected (ignition) plus
- 58 - terminal 58 - lighting
- 31 - terminal 31 - ground
- F1 - fuse 5A quick-response
- C1 - 8-pin MQS connector

You must comply with the wiring diagram.

d-marina-team GmbH

d-marina-team GmbH

Depending on the configuration, insert the cable into the 8-pin contact enclosure according to the following pin assignment. The contacts must audibly lock into place.

- Pin 1 - Term. 15 - ignition plus 12 V
- Pin 2 - Term. 31 - ground
- Pin 3 - unassigned
- Pin 4 - unassigned
- Pin 5 - unassigned
- Pin 6 - Term. 58 - lighting
- Pin 7 - unassigned
- Pin 8 - unassigned

Now insert the plug into the gauge. Note the inverse polarity protection nose in the process.
